

## **HARINI WASHER EXTRACTOR**

Washer Extractor is especially designed by our experts with premium quality as per the needs of the users. It can be used in hotels, hospitals, Laundry business etc., and commercial laundries. We maintain SS Grade 304 stainless steel, heavy duty motors to ensure high efficiency with low power consumption. Inner drum electronic balancing. Designed water inlets and drains are largest in size in order to fill and discharge the hot, cold and recycled water with minimum time. Jerk less operation with soft start & stop.
